SKILLS

- **Languages:** C, C++, Java, Python, PHP, JavaScript, HTML, CSS
- **Frameworks:** Bootstrap, Tailwind, ReactJS, Node.js
- **Databases:** MySQL, MongoDB
- **Tools/Platforms:** Git, GitHub, VS Code
- **Soft Skills:** Problem Solving, Team Work, Time Management, Adaptability

PROJECTS

Credit Score Advisor - Financial Scoring System | Github Mar' 25

- Developed a full-stack credit scoring platform evaluating 5+ financial factors (income, debt, payment history, credit age, utilization) using a weighted algorithm, enabling real-time classification of users into 4 credit tiers (Excellent/Good/Fair/Poor) with consistent scoring accuracy.
 - Implemented secure backend services using FastAPI and SQLite, managing 1,000+ credit records, supporting REST APIs with ~90% frontend-backend interaction efficiency, and ensuring reliable data persistence and retrieval.
 - Engineered a responsive frontend with React (Vite) and Tailwind CSS, reducing form input friction by 30%, achieving sub-2s response time for score computation, and delivering clear, categorized credit insights through an intuitive UI.
- Tech:** FastAPI, SQLite, React (Vite), Tailwind CSS, Axios

Learnix - AI-Powered Learning Platform | Github Dec' 24

- Architected an AI-driven learning platform delivering personalized education for 500+ learners through recommendation engines, adaptive assessments, and performance analytics, improving content relevance and learning progression.
 - Implemented PHP (MVC) backend modules powering admin dashboards, enabling structured management of 1,000+ users, classes, exams, and content workflows with role-based control.
 - Optimized the student-facing UI/UX by revamped dashboards, integrated database-driven question banks (2,000+ questions), and automated real-time result calculation and progress tracking, reducing manual evaluation effort by 40%.
- Tech:** HTML5, CSS3 (Bootstrap + Custom), PHP 8 (MVC), MySQL

SUMMER TRAINING

Data Structures & Algorithms (Java) | Link: Jul' 25

- Gained real-world readiness by practicing **time-space complexity analysis**, writing optimized solutions, and applying scalable algorithmic thinking to practical challenges.
- Strengthened **problem-solving and analytical skills** through structured coding exercises, debugging tasks, and performance-driven Java implementations.
- Completed an intensive **70-hour DSA program** focused on core data structures, algorithmic techniques, and optimized Java-based problem solving.

CERTIFICATES

- Cloud Computing (Elite) IIT Kharagpur - NPTEL | Link Oct' 25
- Master Generative AI & Generative AI tools (ChatGPT & more) | Link Aug' 25
- The Bits and Bytes of Computer Networking(Google) | Link Sep' 24
- Responsive Web Design FreeCodeCamp | Link Oct' 23

ACHIEVEMENTS

- Patent – Approved for a novel method titled “A Method for Autonomous Railway Track Fault Detection and Clearance Monitoring” (Request ID: 85518). Jul' 25
- Secured 5 Star Badge On Hacker Rank Sep' 24

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.02 Aug 2023 - Present
- **Mount Egmont High School** Hazaribagh, Jharkhand
Intermediate; Percentage: 72% Apr 21 - Mar 22
- **St Augustine Senior Secondary High School** Hazaribagh, Jharkhand
Matriculation; Percentage: 70% Apr 19 - Mar 20
